PUBLICATIONS OF PROFESSOR A. NAESS

PEER REVIEWED JOURNAL PAPERS

"Extreme values of a stochastic process whose peak values are subject to the Markov chain condition". Norwegian Maritime Research, Vol. 11, No. 1, 1983.

**DISSERTATIONS AND BOOKS**

**PAPERS IN CONFERENCE PROCEEDINGS**

“Rotational motion described by a stochastic nonlinear Mathieu equation with a white noise or narrow-band excitation” (with D. Yurchenko and P. Alevras). Proceedings 11th International Conference on Structural Safety and Reliability (ICOSSAR 2013), New York, USA, June 2013.

“ACER function plots as a diagnostic tool for extreme value prediction.” (with O. Gaidai). Proceedings 11th International Conference on Applications of Statistics and Probability in Civil Engineering (ICASP11), Zürich, Switzerland, August 2011.

“Short-term instability in stochastic aeroelasticity.” (with M. Dimentberg and A. Hera).
Proceedings 3rd Joint US-European Fluids Engineering Summer Meeting and 8th International Conference on Nanochannels, Microchannels, and Minichannels (FEDSM-ICNM2010-30121), Montreal, Canada, August 1-5, 2010.

“Gust Factor for Complex Terrain” (with P.H. Clausen and R. Sandvik). Proc. of the 10th International Conference on Wind Engineering (10th ICWE), Copenhagen, Denmark, June 1999.

“4D Problems by Path Integration” (with C. Skaug). Proc. 8th International Conference on Applications of Statistics and Probability (ICASP8), Sydney, Australia, December 1999.

“Load Effect Combination for Snow and Wind Actions” (with B.J. Leira). Proc. 8th International Conference on Applications of Statistics and Probability (ICASP8), Sydney, Australia, December 1999.
