

Department of Biology and Natural Science Library, in collaboration with Scandinavia's only skeletal conservator, Guus Wellesen, have the pleasure of presenting

INSIDE OUT

- an exhibition about the beauty after death

Guus Wellesen, Department of Natural History and Department of Clinical and Molecular Medicine (NTNU) is merited with awards for his beautiful preparations.

REAL SKELETONS

The purpose of the exhibition is to make people see that beauty comes from within, and after death has occurred. The exhibition also becomes part of Biologiløypa where Skolelaboriet and Department of Biology are visited by 800 pupils from secondary school.

Exhibition at Natural Science Library
from September 23, 2019
