

Covid-19 guidelines - Teaching lab

Keep one meter distance at all times.

Wash hands:

Before the lab work starts and after finishing.

Before and after use of common equipment.

Before and after use of gloves.

Gloves are only used to protect during work with chemicals, not to protect from Covid-19.

Disinfect all contact surfaces before and after activity.

Use personal lab coat and goggles.

Wear a surgical face mask in the lab when 1 meter distancing is not possible. Avoid touching your face.

If you have symptoms of Covid-19 (respiratory symptoms), report to your supervisor. Do NOT meet at Campus.

Register your presence by filling the form (scan QR code) every day you enter the lab (K4.317).
