

## ECCs: Past, Present and Future

The European Control Conference (**ECC**) is organized every two years under the auspices of the European Union Control Association ([EUCA](#)) and aims to bring together academic and industrial professionals in the field of systems and control, and promote scientific cooperation and exchanges within the European Union and between Europe and other parts of the World. ECC is internationally recognized as one of the best scientific and engineering conference on system and control. Below is the complete list of CDCs (including next one) with titles, chairs and locations.
