How to access Flash Drive on Computer

Windows: After plugging in the flash drive, if you are asked what to do, select "Open folder to view files". Otherwise, go to the Start menu and select "Computer" ("My Computer" on Windows XP). Look for the flash drive in the list of computers (usually indicated as removable storage). Double-click this icon to view its contents. Then double-click the file that starts with "View_" to open the product in your web browser.

Macintosh: After plugging in the flash drive, wait for the flash drive icon to appear on your desktop. When the icon for the flash drive appears on your desktop, double click it to open. Then double-click the file that starts with "View_" to open the product in your web browser. When you are done using the product, be sure to quit your web browser.

 Allowing Blocked Content: The flash drive may launch an "Allow Blocked Content" warning on your computer.
